LOCAL GRAIN AND PRODUCE.

The Week Opens with a Brisk Trade

and Strong Prices.

The wholesale streets and on Commission

row trade yesterday took on considerable activ-

ity and prices carried a strong but steady tone.

No advances were made in staple groceries, but

they are in stronger position than last week.

rule steadier in price and are moving freely.

The wholesale houses have large and choice

stocks to select from and are meeting competi-

tion in the respective lines. On Commission row there was a good deal of activity. Advances

were made in the prices of choice apples, cab-bage, oranges and seed potatoes. Poultry, eggs

and butter rule steady and are in good request. Receipts are light. The provision market is active at the revised quotations of Monday.

The local grain market shows a little more ac-

tivity on larger receipts. All cereals are in good request at the following range of prices on the track, as furnished by the secretary of the

VERY FIRM UNDERTONE

STOCK MARKET THROWS OFF THE LETHARGY OF RECENT WEEKS.

Flurry in Call Money to Six Per Cent. Does Not Disturb the Traders-Condition of Local Trade.

At New York, yesterday, money on call was firmer at 31/206 per cent.; last loan

Prime mercantile paper, 4% @51/2 per cent. Sterling exchange was steady, with actual business in bankers' bills at \$4.86@4.861 for demand, and \$4.821/4@4.821/2 for sixty days; posted rates, \$4.831/204.84 and \$4.871/2. commercial bills, \$4.811/2@4.82.

Silver certificates were 604@61c; bar silver. 59%c: Mexican dollars, 47%c. Bar silver, at London, was 27%d per ounce.

Yesterday's stock market was unmistakably strong throughout. The demonstrated indifference of the market on Saturday to the swift depletion of surplus reserves of New York banks took the mainstay of the bears from beneath them. The demand from the short interest was a factor in the advance in prices, especially in the industrials which recently have been under pressure. There were several elements of positive strength in the market also, but the largest part of the buying was undoubtedly due to the effort of the professional element among the speculators to discount the effect of the currency bill. Not only the smaller class of professionals, who have recently had the market to themselves, but operators of larger mold gave evidence of their interest in the market The demands made by the increased activity of the stock market upon the money market was evinced in a flurry in the call loan rate to 6 per cent. The speculators paid no attention to this admonitory symptom, apparently convinced that the end of the money market troubles was at hand, with which is to be sent to the President to-morrow. There were occasional periods of dullness in the work occasional periods of track; wagon wheat, 70c. dullness in the market, apparently with a view to test it. The quick subsidence of activity without any reaction in prices and the firm and a subsidence of the firm and any reaction in prices and the firm and a subsidence of the firm and a subsiden the firmness of the resistance to decline confirmed the confidence of the bulls, and started prices upward again. The closing was quite active and strong, at near the top level. Net gains in the principal active ustrials and specialties, including Sugar. Tobacco, People's Gas, Anaconda, the iron and steel stocks and the New York public utilities ranged from 2 to 4 points, the latter in Sugar. In the railroad list, St. Paul was the leader, both in point of activity and strength, rising an extreme 24. The other grangers, the Southwesterns and a number of the trunk lines and Southern railroads gained a point or over. A feature of the trading was the number of threeday contracts recorded on the tape, an indication of easier money with the operation of the new financial bill. There was a gen-

Cheese-New York full creams, 14@15c; domestic Swiss, 16@17c; brick, 14c; limburger, 14c. erous sprinkling of transactions in fractional lots all through the list, indicating an investment demand, which had no small part in the feeling of confidence evinced by the speculative contingent. A background of strength to the whole market was afforded by the large absorption of railroad bonds, and especially those of the higher grade. This must undoubtedly be attributed to the pressure for reinvestment of funds which have been realized by investors who have sold government bonds at the high prices prevailing, the banks buying them to use for security for circulation. It seems to escape notice that this is, in a measure, an anticipatory employment of the extended circulation, since the capital of the (The quotations given below are the selling prices of the wholesale dealers.) national banks, which has gone for the payment of these bonds, looks to banknote issues for its release and re-employment. London was a liberal buyer of stocks in this market, and considerable sentimental influence was exerted by the large subscriptions reported to be made in New York to the new British loan. It is argued that those subscriptions indicate an abundance of capital and they will represent. also, a quickly convertible foreign credit upon which the country can draw in case of need in the money market. Reports of railroad earnings for the first week in March were encouraging. A good effect was produced also by the statement of exports or February of agricultural products, the large increase in value of cotton exports for the month giving it the record for Feb-The bond market was active and strong throughout. Total sales, at par value, were 2,36,000. United States threes, coupon, and

ing, corner Caverage and Bismarck avenue;

SENSATIONAL ADVANCE ON A NUM-BER OF BULLISH FACTORS.

Other Grains Strong in Sympathy and Fairly Active-Provisions Higher with a Short Stock.

CHICAGO, March 12.-Sensationally strong and active, the result, not only of particularly bullish statistics to-day, but of a sort of spontaneous realization of the security of the bull position, based on the career of the market for months, corn lent a bull influence to the other markets today. May corn closed 1%c over Saturday, May wheat %c higher, May oats 4@%c improved and provisions from 71/2c better for lard to 221/2c up for pork. Corn took the lead of the speculative

markets at the beginning of the session, as it did Saturday, and held throughout a sensational day. Interest in the coarse cereal has not been so general in years as it was to-day. Predictions were made that the market would follow cotton and "go wild" within a short time, basing the predictions on the chances of unfavorable conditions during the planting season. The greatest part of the session the pit was a struggling mass of frantic men, none more frantic than the shorts, who were compelled to cover at heavy losses. Fortunes were made and lost in that wild scramble for the cereal which the statistics showed was getting rather scarce in many sections. May opened %@1/2c over Saturday, at 36%c to 36%c. The government report, which seemed to be the main motive in the skyrocket course of the market, showed 27,-000,000 bushels less in farmers' hands than there was a year ago. The quantity on ocean passage decreased 2,208,000 bushels, and is now down to 9,848,000 bushels. The visible increased over a million bushels, but the supply is now 21.060,000 bushels, granulated-5-lb compared with 34,033,000 bushels a year ago. World's shipments were small and Liverpool was up %d. This array of information furnished the stimulus for the initial gain, and the awakening of shorts and others. The price, till 11 o'clock, did not vary much from opening figures. Then it began to shoot up. Nothing could stop it, apparently, and as the anxious shorts bid higher and higher, men in other pits quit their work to look on, if not to participate. The demand seemed limitless, although the advance carried the cash article out of line with the export bids. May touched 38@381/4c on the bulge and closed 1%c over Saturday, at 37%@38c. Receipts here were 508 cars and at primary points 750,000 bushels, against 615,000 a year ago.

The corn market began to move upward from 291/2c four months ago. It fluctuated narrowly for weeks, gaining a bit all the time, until ten days ago it reached 34%c Saturday the close was at 36@36%c for

The wheat market was dominated by the corn strength. The statistics were bearish. There was a large increase in world's shipments and on passage, and receipts were heavy. Cables were steady, making about the only independent support the market had throughout the session, when it was drowned out of the commercial orchestra by the noise in the corn pit. The cash demand was checked by the advance and altogether the trade was not important, being merely a feeble reflection of the corn market. Primary receipts were 937,000 bushels, compared with 658,000 last year. Minneapolis and Duluth reported 902 cars, against 373 cars last week and 557 a year ago. Local receipts were 55 cars, 1 of contract grade. Atlantic port clearances, in wheat and flour, were equal to 328,000 bushels. New York reported 10 loads taken for export. May opened unchanged, at 65%@66c, touched 65%c, and recovered to 66%c with

corn, closing %c over Saturday, at 6614@ The trade in oats was not important, but the market was helped by the corn strength. Receipts here were 380 cars. May ranged from 23%c to 24c, and closed 1/0%c higher, at 24c.

Provisions were strong and the trade broad. The commission business showed a liberal increase and there was some important covering. Pork attracted special attention, as the contract stock does not exceed 40,000 barrels, with delivery day on May options only fifty days away. The hog market was firm, but much of the strength of the market was derived from corn. May pork ranged from \$10.90 to \$11/10 and closed 221/2c improved from Saturday, at \$11.10; May lard from \$6 to \$6.071/2. closing 71/2c up. at \$6.05, and May ribs from \$5.971/2 to \$6.05, with the close 10c better, at \$6.021/2006.05.

Estimated receipts to-morrow-Wheat 63 cars; corn, 870 cars; oats, 420 cars; hogs,
